

# Study Abroad Opportunities for Health Science Majors

AIFS is pleased to provide many exciting opportunities for Health Science majors to study abroad, with relevant courses and, in many locations, hands-on experiential learning opportunities which provide valuable insight into health care in an international setting. Studying abroad in your field, particularly with an experiential learning element could be the differentiating factor to make your résumé stand out above others when applying for jobs or post-graduate opportunities. For more program details or additional information, contact us at **(800) 727-2437** or visit us online at [www.aifsabroad.com](http://www.aifsabroad.com)

## SEMESTER PROGRAMS

### PERTH, AUSTRALIA/FIJI

**Murdoch University | \$15,995 | Fall 2017 or Spring 2018**

*Full Curriculum Available*

Murdoch University's Schools of Psychology & Exercise Science, Veterinary & Life Sciences and Health Professions offer a wide range of courses in areas including animal science, anatomy, biology, biomedical science, chemistry, chiropractic and sports science, nursing, nutrition, organic chemistry, physics, physiology, pre-med, psychology and veterinary science. In addition, the University offers a full curriculum of courses allowing you to take courses both in your major and across the academic spectrum.

### ATHENS, GREECE

**American College of Greece | \$15,995  
Fall 2017 or Spring 2018**

*Full Curriculum Available*

The American College of Greece offers a broad range of courses all available to study abroad students. Courses in the health sciences include biology, chemistry, environmental health, health and society, human genetics and neurobiology.

### HYDERABAD, INDIA

**University of Hyderabad | \$11,995  
Fall 2017 or Spring 2018**

*Full Curriculum Available*

Students can choose from over 200 courses taught in English. Courses in the health sciences include biology, chemistry, genetics, medical anthropology, molecular biology, organic chemistry, sociology of health and pre-med. Students may also volunteer with a local NGO.

### WELLINGTON, NEW ZEALAND/FIJI

**Victoria University | \$18,995  
Fall 2017 or Spring 2018**

*Full Curriculum Available*

Students can choose from the full academic curriculum at Victoria University. Courses include biochemistry, biology, calculus, chemistry, organic chemistry and physics.

### BARCELONA, SPAIN

**Universitat Pompeu Fabra (UPF) | \$12,295  
(\$16,290 with 2-month clinical observation internship)  
Spring 2018**

*Global Health (spring only)*

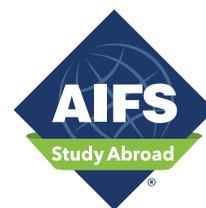

The Global Health Program is offered every spring and is designed for students majoring in health sciences, biology, veterinary science, nursing or other health-related field. Students take 4-5 courses in UPF's prestigious Health and Life Sciences School and those with a minimum of 4 semesters of college Spanish may stay on for 2 months at the end of the semester for a clinical observation internship placement. Students intern full time, shadowing a local intern at a hospital, community health clinic or laboratory to gain first-hand experience of health-related professional practice in Spain, learning through both action and observation.

Courses are offered in comparative healthcare systems, anatomy and embryology, physiology, public health, cellular biology, nutrition and food science, biochemistry, pathology and psychology.

## SALAMANCA, SPAIN

University of Salamanca | \$12,495 | Fall 2017

In the fall, the University of Salamanca offers a Medical and Health program intended for students of health sciences: medicine, nursing, health management, pharmacology or biology. Students choose up to 5 courses; a minimum of 2 and a maximum of 4 must be from the Health and Medical program and the rest from courses offered on the regular program. Courses include Bioethics, Health Communication, Human Genetics and Molecular and Cellular Bases of Disease.

## ISTANBUL, TURKEY

Boğaziçi University | \$12,995  
Fall 2017 or Spring 2018

*Full Curriculum Available*

Students can choose from a broad academic curriculum. Courses for health science majors include biology, biochemistry, calculus, chemistry, organic chemistry, physics and pre-med courses.

## SUMMER PROGRAMS

### BUENOS AIRES, ARGENTINA

University of Belgrano | \$6,595 | 5 weeks

The Medical Spanish Immersion Program is designed primarily for those interested in a career in the health professions. In addition to Spanish language classes focusing on improving medical vocabulary and lectures from health professionals, students take a clinical rotation internship at the Hospital Británico in Buenos Aires providing them with a unique, hands-on learning opportunity. Students will be assigned to specific medical areas at the hospital such as Pediatrics, Intensive Care Unit, Internal Medicine, Emergency Room, Infectious Diseases, Orthopedics and Traumatology for a total of 100 clinical rotation hours. Additionally students will benefit from the calendar of events at the hospital including medical rounds. By the end of this 6-credit program students will have improved their Spanish language skills, built relationships with medical professionals and gained experience in medical and research environments in Argentina.

### SAN JOSE, COSTA RICA

Universidad Veritas | \$4,995 | 5 weeks

The Spanish for Health Professionals and Health Care Electives Program gives students the opportunity to take a specialized Spanish language course designed to provide health care professionals with the linguistic ability to interact with Spanish-speaking patients, plus one health care elective taught in English for a total of 9 credits. Electives include Alternative Health Approaches, Conflict Resolution and Health Care, Costa Rican Health Care and Tropical Medicine, Health Psychology and Introduction to Physical Therapy.

### LONDON, ENGLAND

University College London (UCL) | \$5,995/\$8,995  
3 weeks/6 weeks

The UCL summer school offers 4-credit courses in Anatomy and Developmental Biology, Global Health, Nanotechnology in Medicine, Population and Public Health.

### LIMERICK, IRELAND

University of Limerick | \$5,495 | 3 weeks

The Health Care Program is offered by the University of Limerick's Department of Nursing and Midwifery which is part of the Faculty of Education and Health Sciences. Students take a 3-credit course in Developing Self as a Health Care Practitioner which explores the psychological, sociological, cultural and spiritual elements towards personal development for health care practitioners. A program of clinical visits gives the students context and real life experience of the health care system in Ireland.

### STELLENBOSCH, SOUTH AFRICA

Stellenbosch University | \$6,295 | 4 weeks

On the Public Health Care Program students take a course on South Africa's Political History, plus a Public Health Care in South Africa course for a total of 7 credits. The latter introduces students to the health care system in South Africa through a combination of lectures and experiential learning. Students will enhance their classroom learning with visits to health care facilities where they will be able to make observations and participate in on-site activities.
